

MAKING AUSTRALIA A BRIGHTER PLACE TO PLAY

Swancorp are proud to be a part of the Impact story as sole distributor of the Impact range of paints and the iGO spray machine family.

2011 heralded a milestone in the history of Linemark (UK) Ltd, when they became the proud recipient of the Queen's Award for Enterprise, in the Innovation category, for their Impact XP and iGO combination. The honour is bestowed only to companies that meet the exacting standards required, not only for the products produced, but for the business systems and ethics that they work to, including the continuous research and development of paint and machinery.

The benefits to the end user are many, and include:

 **No mixing:** Impact XP is a ready to use product that does not require the addition of water or mixing.

 **Ease of use:** Using the paint straight from the packaging, reduces mess and labour costs. The iGO machine and paint combination, is easy to use and maintain. Servicing requires no tools, and an easy to follow instruction manual is supplied with every machine.

 **Reduced marking costs:** The Impact system gives lower costs per pitch when using the specially developed, Impact nozzles.

 **Storage costs:** Less paint usage means less stock holding, freeing money for other projects.

I was incredibly impressed with this new formulation, there is no ghosting seen after cutting twice the following morning after application and the brightness of the line was amazing, with less paint used in marking out than with its current formulation. Even five hours of non-stop torrential rain during the tournament did not affect the brightness of the line.

Keith Kent - Twickenham Head Groundsman

'Because we have a large number of pitches at the training ground, speed of line marking is important. We have for many years based our programme on the Impact Linemarking system and with the Impact paint, I can say that we have never had brighter, more durable lines.

Bob Lennon, Head Groundsman, Everton FC.

Chosen by some of the most prestigious clubs in the world - where only the best is good enough
